SmartVision
DTS data analysis and visualization software

SmartVision is an integrated data acquisition and handling software package that provides everything you need for data analysis, data management and visualization. It lets you view and store detailed analyses, statistics, history trace generation, colored 2D temperature mapping, and much more.

Trace comparison

History graph
SmartVision at a glance:

- Large central measurement database (up to 10 GByte)
- Trace visualization, analysis and statistics
- Post-measurement calibration
- Individual history graphs
- 2D color map
- Movie functionality
- Online data collector (optional)

Operating System:

- Windows 7™, XP™ or Vista™

Recommended hardware:

- Dual core processor ≥ 2 GHz
- ≥ 2 Giga Byte Memory
- ≥ 1280 x 1024 Resolution
