

Data Protection Objectives

Our employees, customers, suppliers and all other interested parties are our most valuable assets. We recognize that building a long-term business relationship with you depends to a large extent on trust. This trust begins with our commitment to respect and protect your privacy.

The legal foundation for handling your confidential and personal data are - amongst others, the latest revisions of the European General Data Protection Regulation (GDPR) and German national law, such as the Bundesdatenschutzgesetz (BDSG) and the Telemediengesetz (TMG).

- We shall be compliant with legal requirements.
- We shall not sell or buy confidential or personal data, even if this might be legal under certain conditions.
- We shall protect all confidential or personal data from unauthorized access by implementing state-of-the-art security measures.
- We shall only process personal data if required to fulfill a certain task and for a legitimate purpose.

To offer transparency about the data we store and process, this Privacy Statement, AP Sensing Terms of Sale & Purchasing as well as Employee information on Data Protection and Processing shall be made easily available for all parties with a legitimate interest.

All AP Sensing staff is requested to support these objectives in their daily work and follow the relevant procedures in place.

Clemens Pohl - Managing Director
Boeblingen, Germany, March 2025

Privacy Policy

This Policy was last revised on March 24th, 2025.

AP Sensing GmbH, a limited liability company under German law, having its principal place of business at Herrenberger Str.130, 71034 Boeblingen, Germany and its affiliated group companies (also referred to in this document as "AP Sensing") provides this Privacy Statement to make you aware of our privacy practices and the choices you can make about how your personal information is collected and used, both on-line and off-line. By using our services, you agree that we, AP Sensing, acquire, process and use data as listed and described below. To make this notice easy to access, it is available at the bottom of every AP Sensing web page.

The legal foundation for handling your personal data is - amongst others, the latest revisions of the European General Data Protection Regulation (**GDPR**) and German national law, such as the Bundesdatenschutzgesetz (**BDSG**) and the Telemediengesetz (**TMG**). In this Data Privacy Statement, we inform you about the most important aspects of data processing within our website.

We have structured our web site so that you can visit us without identifying yourself or revealing any personal information. In this Privacy Statement, personal information that is uniquely assignable to a person, such as name, address, e-mail address, phone number, IP address, etc. is referred to as personal information. If you do share your personal information with us, you can be assured that it will only be used to support your relationship with AP Sensing. Any sharing of personal data is on a voluntary basis.

AP Sensing's privacy statement covers 10 main areas: **Fundamentals, Choice and revocation, Third Countries Transfer, Access and Accuracy, Data Security, Storage and retention periods, Cookies Usage, Registration, Marketing Tools and Additional Information**. These areas are described in detail below. Please keep in mind that our privacy practices may vary as required by local laws and policies. Comments or questions about our privacy practices can be sent to: privacy@apsensing.com.

1 Fundamentals

What information we collect (Art. 5 et seq. GDPR)

During the course of your relationship with us, we may collect, process and use personal information to enable you to order products or services, download software updates, make requests, and register for customized communications programs. Personal data consists of all information related to an identified or identifiable natural person, means data that is an expression of a person's identity. We may collect such personal data as your name, contact and transaction information, payment data and IP address. To tailor our subsequent communications to you and improve our products and services, we may ask you to provide information regarding your personal or professional interests, demographics, experience with our products and contact preferences. Personal information may be required to determine access eligibility for certain restricted parts of our site. Data collected online may be combined with information provided offline. Following the requirements to avoid or to minimize any unnecessary data storage, we only collect data needed to reasonably run our business or to meet any legal requirements.

For individual services, such as use of applications, we may also collect information that is necessary to visit, use or navigate these services. This information may include device and usage information or location data. You will be informed separately within these services about the data collection and all relevant information.

What is the legal basis to process personal data

We only process your personal information when we believe it is necessary and we have a valid legal base to do so under applicable law (General Data Protection Regulation, GDPR), such as with your consent, to provide you with services requested, fulfill our contractual obligations, or to fulfill our legitimate business interests.

How we collect personal data

AP Sensing collects personal information in several ways. Either you choose to provide us the information on our website, in person, on the phone or electronically. Furthermore, we may now or in the future receive such information from third parties that legally acquired such information and that are entitled to share it with us (e.g. we may receive contact data from a relevant trade show).

AP Sensing uses cookies and other technologies such as web beacons, local shared objects, local storage, e-tags, and JavaScript, to collect online usage information. Please review AP Sensing's Cookie Policy under section 7 for more information.

Certain AP Sensing software or cloud-based applications collect software user information via an automatic data feed when connected to the internet. Specific information about which personal data is collected by a particular software product is available in the documentation associated with that product.

How we use the information (Art. 5 et seq. GDPR)

AP Sensing uses your personal information to understand your needs and provide you with better services. Specifically, we use your personal information to help you complete a transaction, to communicate back to you, provide updates on service and benefits, and to personalize our web sites and communications with you. Bank information is only used for payment processing and is not retained for other purposes. From time to time, we may also use your information to contact you for market research or to provide you with marketing information we think would be of particular interest. We will always give you the opportunity to opt-out of receiving such contact. If you would like to read more about how to opt-out, please follow the directions given below in the "Choice and revocation" section of this document.

On occasion AP Sensing may employ technologies that enable us to review which recipients have opened our e-mail communications and which links they have accessed in the message. This helps us to tailor our communications in our attempts to send you the most relevant information, as local laws and your preferences and permissions allow. If registered user, we may also monitor your web browsing session while you are logged-in to apensing.com. This helps us to improve our web site through personalization to better meet your needs. Any such monitoring is done in accordance with local laws.

With whom we share the information (Art. 28 GDPR)

AP Sensing does not sell, rent, or lease your personal information to others. Unless we have your agreement or are required by law, we only share your personal information with other AP Sensing entities or external service providers who are acting as processors on our behalf for the uses described above or such as sales and marketing services, payment handling, programming, data hosting, and hotline services. We have chosen those service providers carefully and monitor them on a regular basis, in particular regarding their diligent handling of and protection of the stored data. Such AP Sensing entities and service providers are governed by our privacy policies and the statutory provisions with respect to the use of this data and are bound by the appropriate confidentiality agreements.

What rights you have regarding your personal data (Art. 7, 12 et seq. GDPR)

Without your consent, we will not collect or process your personal information. Your consent can be revoked at any time. You have the right to get information at any time and free of charge on stored data on your person. This includes the source and beneficiary of personal data and the purpose for the collection and processing of this data. Furthermore, you have the right to get your personal data corrected, updated, blocked out, deleted or the processing limited. Excluded is data which needs to be archived for legal reasons or for the purpose of correct business transactions. We would also like to draw your attention to your right of appeal to a supervisory authority. For all questions or requests for correction, block out or deletion of personal data please contact our data privacy officer using the contact data above.

2 Choice and revocation (Art. 7 GDPR)

AP Sensing will not use or share your personal information in ways unrelated to the ones described above without first notifying you and requesting your consent, which you can revoke at any time. We will also provide you the opportunity to let us know if you wish to opt-out at any time of certain or all online contact from AP Sensing. If you have any difficulty exercising your choices, please send your request to privacy@apsensing.com. Should we ever need to share your personal information with third parties that are not acting on our behalf and governed by our privacy policy, your consent will be secured beforehand.

3 Third Countries Transfer (Art. 44 et seq. GDPR)

Subject to your permission or as permitted by law, we might transfer personal data to recipients located outside the European Economic Area (EEA) into so-called third countries. In such cases, prior to the transfer we ensure that the data recipient provides an appropriate level of data protection. You are entitled to receive an overview of third country recipients. This may be done to consolidate data storage or to simplify the management of customer information. We will take all necessary measures to protect your personal information in accordance with this privacy notice and applicable law.

4 Access and Accuracy (Art. 5, 16 GDPR)

AP Sensing strives to keep your personal information accurate. We will provide you with access to your personal information, including making every effort to provide you with online access to your registration data so that you may review, update or correct your information at the AP Sensing site where it was submitted. To protect your privacy and security, we will also take reasonable steps to verify your identity before granting you access or enabling you to make corrections. If you cannot access your information on the web page, please telephone AP Sensing for assistance, or send your request to privacy@apsensing.com.

5 Data Security (Art. 25 GDPR)

As a certified ISO 27001 company, AP Sensing is committed to ensuring the security of your personal information. To prevent unauthorized access or disclosure, maintain data accuracy, and ensure the appropriate use of personal information, we have implemented appropriate and reasonable physical, electronic and managerial procedures to safeguard and secure it. The use of HTTPS and SSL-encryption for transmission of all sensitive data ensures a high level of data security. Nevertheless, we do not want to miss to point out to the general dangers of using the internet, on which we do not have any influence. Especially the use of email communication without further precautions is not secure.

6 Storage and retention periods (Art. 5 GDPR)

Principally, we store your data as long as it is necessary to render our services, to fulfil contractual obligations, with your consent or a legitimate interest in storing the data. In all other cases we will delete your personal data with exception for data that we are obliged to store to be compliant with legal obligations, such as retention periods under tax law or commercial codes for which we are required to keep certain documents available for a certain period of time.

Once we have no ongoing legitimate business need to process your personal information, we will either delete or anonymize such information, or, if this is not possible (for example, because your personal information has been stored in backup archives), then we will securely store your personal information and isolate it from any further processing until deletion is possible.

7 Cookies Usage

Cookies help us provide a better web experience by letting us monitor what is working and what is not through site traffic analysis. AP Sensing wants to be sure you understand that accepting a cookie in no way gives us access to your computer or any personal information about you, other than the data you chose to share with us. While acknowledging the concerns that some visitors have about cookie usage, we believe that the benefit our webpage visitors gain from the use of cookies is worthwhile.

Technically required cookies are necessary for the technical provision of the online service. These include e.g. cookies that store data to ensure smooth reproduction of video or audio footage. We also use not technically required cookies, such as marketing cookies or tracking mechanisms for which prior consent is necessary. On occasions AP Sensing may use cookies to analyze web traffic or to improve your web navigation experience.

Consent Management Tool: CookieHub

We are using the Consent Management Tool CookieHub to manage your consent to the use of cookies and similar technologies and the subsequent data processing. If you give your consent via our consent banner, following data is processed according to Art. 6 Abs. 1 S. 1 lit. f GDPR:

- a unique string of characters that is stored in a CookieHub cookie in your browser along with the cookie category settings. This token can be requested by you to find the entry from the consent log and demonstrate your consent choices.
- the full URL displayed by you when the cookie settings were configured in the CookieHub widget
- a reference to the version of the widget that was displayed at the time you gave consent
- your anonymized IP address, with the last part of the IP address replaced by a 0 to avoid the risk of identifying personal data
- the registered country code for the anonymized IP address block
- your agent string, which usually contains browser and operating system information
- the date and time of your consent

When using the platform, the data collected via our websites is transmitted to CookieHub ehf. (Hafnargata 55, Reykjanesbær, Iceland).

This data is logged on the provider's servers. As part of the data processing, cookies are used to store your consent status in your terminal device, to read it out again when you visit the site again and to compare it. In this way, we are able to check your consent status on all subsequent and future visits to our websites and to activate or deactivate cookies and other technologies in accordance with your decision to use them when you return to the site.

Reviewing Cookie settings

When accessing our website for the first time or afterwards by adjusting the Consent Management Tool, you can review the cookies settings, decline cookies completely or withdraw afterwards your previously given consent to specific cookies only.

8 Registration

If you choose to register your product(s) in our password protected customer portal to get the latest firmware and other updates, you can do so by filling out the registration form on our web page with mandatory contact name, email address, company name, product serial number and by assigning a password. Company address and phone number information are by choice. By registering, you agree as a user that we, AP Sensing GmbH acquire, process, and use the registered data as described. You always have the choice to opt-out and get your personal data updated or removed from our data base by contacting our data privacy officer under the contact information above.

9 Marketing Tools

By using tracking mechanisms, we are able to show you personalized offerings, resulting from an analysis of your interests and user behavior. Please note that using the tools might include transfer of your data to recipients outside of the European Economic Area (e.g. the USA). For more details in this respect please refer to the following description of the individual marketing tools:

Newsletter

When you subscribe to the newsletter you can, if you wish, specify areas of interest. We will use this information, along with your first name, last name, and email address, to select information that will be of particular interest to you. We only pass data collected in connection with the newsletter registration to third parties insofar as this is technically necessary for sending out the newsletter. If you no longer wish to receive the newsletter, you can unsubscribe at any time. To do this, simply click on the "unsubscribe" link available in each of our newsletters. Afterwards, you will receive no further newsletters from us, and your subscription data will be removed from the database. The newsletter will be distributed via Intuit Mailchimp with headquarter in 2700 Coast Ave, Mountain View, CA. 94043 and its privacy statement under <https://mailchimp.com/about/security/>

Facebook, LinkedIn Plugin

Our website features only image links of social networks, such as Facebook (Meta) or LinkedIn. The provider, including affiliates outside of USA, is Facebook Inc. (Meta Platforms, Inc.), with headquarter in 1 Hacker Way, Menlo Park, CA, 94025, USA and LinkedIn Corporation, with headquarter in 1000 West Maude Avenue, Sunnyvale, CA 94085, respectively. See the privacy policy under <https://www.facebook.com/privacy/policy> and <https://linkedin.com/legal/privacy-policy>. At no time are data transmitted from our website to the respective operators of the social network without this being initiated by the user.

Youtube Videos

On some of our web pages Youtube videos are embedded or image links to Youtube are supplied. Provider of this service is YouTube, LLC (a Google company), based in 901 Cherry Ave., San Bruno, CA 94066, USA. See its privacy policy under <https://www.youtube.com/howyoutubeworks/user-settings/privacy/>. If you click on a video link, a connection with the servers of Youtube is established. Unless you are logged in with your personal Youtube account, no personal data can be linked to the video. The provider uses cookies to record non-personalized user behavior. You can block the use of cookies in your browser (see Adjust Browser Cookie Settings).

Google Analytics 4

Our website uses Google Analytics, a web analytics service provided by Google LLC with headquarter in Mountain View, CA 94043 (USA), including its affiliates outside the USA. ("Google"). See its privacy policy under <https://policies.google.com/privacy>. Google Analytics uses Cookies that generate information about how users use this website and usually transfers this information to a Google server in the USA, where it is stored. IP anonymization has been activated on our website, so that the IP address of the users of Google within Member States of the European Union or in other contracting states of the Agreement on the European Economic Area is shortened beforehand. You can prevent the Cookies storage in the Consent Management Tool; however, you may not be able to use all features of this website in their entirety. In addition, users may prevent the collection by Google of the data generated by the cookie and related to its use of the website (including your IP address) as well as the processing of this data by Google by using the browser plug-in available under the following link download and install. The current link is: <https://tools.google.com/dlpage/gaoptout?hl=en>

Google Tag Manager

We use Google Tag Manager (hereinafter GTM) on our websites. The provider is Google LLC with headquarter in Mountain View, CA 94043 (USA), including its affiliates outside the USA, ("Google"). See its privacy policy under <https://policies.google.com/privacy>. GTM may gather certain aggregated information about tag firing in order to monitor and offer diagnostics regarding system stability, performance, and installation quality. User IP addresses or any other measuring identifiers connected to a specific person are not included in this data. GTM does not gather, store, or disclose any information on our website visitors, including page URLs viewed, except for normal HTTP request log information, which is completely deleted after 14 days of being received. Additionally, Google may collect information such as how the GTM is used, and how and what tags are deployed. Google may use this data to improve, maintain, protect, and develop the use of GTM as described in its privacy policy, but it will not share this data with any other Google product without your consent. For further information on Google Tag Manager: <https://developers.google.com/tag-platform/tag-manager?hl=en>.

10 Additional Information

Links to Third Party websites

Links to third party websites are provided solely as a convenience to you. If you use these links, you will leave the AP Sensing site. AP Sensing has not reviewed all these third-party sites, does not control and is not responsible for any of these sites, their content or their privacy policies. Thus, we do not endorse or make any representations about them, or any information, software or other products or materials found there, or any results that may be obtained from using them. If you decide to access any of the third-party sites linked to this site, you do so entirely at your own risk.

Changes to the Privacy Statement

All material changes to our Privacy Policy and practices will be posted on this page. The revision date shown at the top of the page will be updated accordingly. As the information at this page can be updated at any time it is recommended to visit this page regularly.
